

## RED CROSS ANNUAL ELECTION WILL BE HELD OCTOBER 27

All Adult Members Are Entitled to Vote Next Monday Between 4 and 6 O'clock—T. H. Shive Is Making Plans for Membership Campaign November 2 to 11.

The Wilbarger County Chapter of the American Red Cross will hold its annual election Monday, October 27 in the director's room of the Waggoner National Bank. The voting hours are from 4 to 6 o'clock. All adult members of the Red Cross are entitled to vote.

An executive committee of twelve will be elected, and this executive committee selects the officers for next year.

"We expect Wilbarger county to 'go over the top'" said T. H. Shive at an Executive Committee meeting of the Red Cross yesterday. He had reference to the Red Cross yesterday. He had reference that is to take place all over the United States November 2-11.

Wilbarger county is asked for three thousand three hundred members. On account of the splendid contributions made to headquarters in money and clothing by the local Chapter, no drive for funds will be made. Only a "heart and a dollar" is asked for by the committees.

Plans are being mapped out and the work will soon be under way. A new office is being selected, where the chairman of the membership drive, the secretary, and the Home Service will have headquarters. The Executive Committee hopes to secure an office in the Vernon Oil Exchange building.

### CULTURE CLUB NEXT WEEK.

Mmes. Wilhelm, Piper and Rouse Will Assist Mrs. J. G. McCarroll as Hostess.

Mrs. J. G. McCarroll will be hostess to the members of the Culture Club, Tuesday afternoon of next week.

Mrs. L. E. Fisher will tell of the "Beauties of the Music of the American Indian." Mrs. T. L. Rouse and Mrs. Peyton E. Phillips will play and sing selections from the Indian music.

Mrs. W. E. Mays will read a paper on "Bolshevism, Its Cause and Cure." Mrs. Harper Reed will discuss, "Should America Reject the League of Nations?" Mesdames W. A. Wilhelm, L. E. Piper and T. L. Rouse will be assistant hostesses.

### GOODPASTURE FOUND PLENTY OF COTTONPICKERS IN EAST

R. M. Goodpasture returned Saturday morning from a trip to Wood and Van Zandt counties, where he went looking for men to help pick his cotton crop. He found a great many people down there who expect to go West, looking for work as soon as they finish with their crops.

Because of recent heavy rains, Mr. Goodpasture says people in that part of the State will have very little crop to gather. He thinks a concerted effort should be made to get such people to come here.

Many of the counties further west are advertising in local papers in East Texas that they need workers, and Mr. Goodpasture says relatively few to whom he talked thought anything about stopping in this part of the State.

### Mrs. Watts Home From Michigan.

Mrs. Rena Watts returned Friday from a month's visit with relatives and friends in Dowagiac and other points in Michigan. Mrs. Watts reports that her sister, Mrs. Addie Streich, who visited in her home last winter and was reported seriously ill, is very much improved, but was unable to accompany her home as was planned.

### Mrs. Goodpasture Buried Sunday.

Mrs. B. Goodpasture, whose death occurred Thursday night at Lubbock, was buried Sunday afternoon in the Fargo cemetery. Religious services were conducted by Elder Whitaker of Tipton, Okla. The body arrived in Vernon Sunday morning. Friends will join in sympathy for the bereaved relatives.

## MAY ASK MRS. DALE TO TEACH COURSES ON HYGIENE HERE

Red Cross Chapter Will Likely Ask Woman Who Had Charge of Nursing During Influenza Epidemic Last Year to Take Charge of Classes—Time Will Not Permit Work in Schools.

To further the work of the "peace time" program of the Red Cross, the Wilbarger County Chapter intends having a course of lectures given this winter. The subjects will be on hygiene, home care of the sick, first aid and kindred subjects.

A trained nurse will teach these classes and any one, man or woman, who desires to take up these subjects are invited to attend. There will be no tuition fee, the Red Cross bearing all expenses.

It is hoped that several men will avail themselves of the opportunity to take the course on first aid, as in case of accident, the men are most generally the first to reach the scene.

The Home Service Secretary was notified yesterday morning that it might be after Christmas before a nurse could be sent from Headquarters at St. Louis, and Mrs. J. Dale, who did such efficient work last winter during the influenza epidemic, has been asked to take the classes, and possibly will be able to come and take charge. She is now in Quanah engaged in this work and has several dates ahead in Oklahoma.

The "peace time" program is along the lines of the conservation of life. The Red Cross organization wants to see that one member out of each family in the United States has this training, so that when occasion arises, this training will provide a trained worker in the family.

It is desired to place this course in the schools of the city and county but so far it has been impossible on account of lack of time. Auxiliaries were to be formed in every room and home tasks in the way of hygiene given to the pupils. Some schools are giving this as a credit course. It is also compulsory for graduation in many of the large high schools.

### FOUR CHURCHES ORGANIZED

Baptists Make Plans for Educational Campaign Preceding Drive for \$75,000,000.

Geo. J. Mason and County Missionary J. W. Arnsperger were at Tolbert Sunday in the interest of the educational campaign preceding the Baptist drive for \$75,000,000. Rev. W. T. Rouse and Missionary Arnsperger were at Bethel.

Indications are that the Baptist 75 Million Campaign will establish a record of being the most economically conducted drive for a large sum of money that has been made in this country. Dr. L. R. Scarborough, general director, announces, it being now assured that the expense will be considerably less than 1 per cent of the sum asked. This sum includes the expenses incurred by the general headquarters at Nashville and the eighteen state headquarters as well.

Aiding in the effort to keep down campaign expenses in order that all the money raised may go toward the purposes for which it is sought is the fact that the campaign is of short duration, no large overhead cost has been incurred in the payment of large salaries, and many of the workers are contributing their services without any remuneration.

Evidencing the spirit of the campaign, one of the prominent workers has just declined an offer of \$25,000 a year to engage in work along another line, preferring to live on a small fraction of that amount in order to give himself entirely to religious work.

### Collinsville Man Moving Here.

J. W. Mote of Collinsville has moved to his farm on route 3. Mr. Mote has owned the place three years, and says he has lost money on it so far, but he thinks the best is ahead, and has taken charge of his farm in person.

### New Teacher for Haney.

Miss Lena Pearson of Gatesville came in Saturday and took up her work as teacher at Haney yesterday. Frank C. Wood is principal. School opened yesterday morning.

## SIX MONKS REBUILD MONASTERY IN ENGLAND

MONKS REBUILDING ANCIENT BUCKFAST ABBEY, ENGLAND. © PHOTO INTL.

Twelve years ago six monks began the work of restoring the famous monastery of Our Lady of Buckfast. This self imposed task has gone forward with amazing success, considering that the work is done entirely by these six men without outside aid of any sort. Today one of the chapels stands rebuilt and the earnest workers are employed at reconstructing the tower. They estimate that they will have rebuilt the ancient abbey by another ten years.

Buckfast Abbey is situated two miles from Ashburton in a beautiful Devonshire valley watered by the Dart. The time of its foundation is not known, but it certainly antedates the Norman conquest. The earliest authentic document is a grant from King Canute (1015-1035) to the monks of Buckfast of the manor of Sele, now called Zeal Monachorum.

## HANOVER COMPANY IS IN NEW OFFICES

AUSTIN MAN WILL BE ASSOCIATED WITH FARNELL, HICKER-NELL, AND PECK.

The Hanover Company (of Texas) has received most of the furniture for fitting up its new offices over the Oil Exchange. Four rooms will constitute the suite of the company. These are being furnished in golden oak desks, filing cabinets, and chairs. On the floors are green plush rugs. These fixtures, and others that have been made, involve an expenditure of more than \$2,000.

Colonel J. L. Hunter of Austin came in Sunday to be associated with Messrs. J. D. Parnell, J. C. Hickernell, and A. P. Peck. Miss Helen Vaughn is secretary.

The company will handle Eastern capital. Its members were associated with J. A. Kemp and Frank Kell of Wichita Falls in the purchase of Call Field. The buildings there are being used to help solve the housing problem of the oil field metropolis. Later it is planned to make of this a restricted addition to Wichita Falls.

### TIME CHANGES SUNDAY.

Turn the Clock Back Before Going to Bed Saturday Night and Forget It.

Next Sunday, October 26, will see the Daylight Saving Bill a matter of history. The clocks will be set back an hour and continue so until some other congress decides it is necessary to save daylight.

The change will occur at 2 o'clock Sunday morning. So, after studying the Sunday school lesson, turn the clock back and go to bed. The public will gain an hour on the Sunday morning nap.

### Moves to Wichita Falls.

Mr. and Mrs. R. C. Smith, formerly of Chillicothe, visited the former's parents, Mr. and Mrs. A. M. Hatt, on West Texas Street, Saturday. They were en route to Wichita Falls, where they will make their home. Mr. Smith will be employed by the Wichita Mill and Elevator Company.

## ODELL WOMAN FIRST TO PAY POLL TAX

MRS. DAISEY CROWNOVER ONLY WOMAN IN COUNTY TO QUALIFY SO FAR.

Mrs. Daisey Crowmover, wife of M. Crowmover, is the first woman in Wilbarger county to pay a poll tax and thus qualify herself to participate in the primaries next year. Mr. and Mrs. Crowmover were at the office of the County Tax Collector yesterday.

Only twelve men have paid poll taxes, but property taxes come in regularly now, thought most of the remittances are from non-residents.

Collector Blair urges the importance of early tax paying this year. The usually heavy amount of work in connection with the collection of automobile license fees will make it impossible to take care of other taxes as late as in former years.

### TISDAL WANTS REPORTS.

County Agent Asks Club Members Who Grew Corn or Grain Sorghums to Send in Books.

County Agent N. R. Tisdal wants all club members who grew any of the grain sorghums or corn to report to him with their complete records by November 10. The grain sorghums include maize, kaffir, sorghum, feterita, and begaria.

These reports are necessary before the special prizes offered by Dixon Dry Goods Company and Perkins-Timberlake can be awarded. Mr. Tisdal must have them, too, before he can make out his report, which must be in early next month.

### Four Marriage Licenses Issued.

Following is a list of marriage licenses issued by the county clerk in the past week:

F. E. Richard and Miss Addie Stanford.

Andrew Thompson and Mrs. Lizzie Whitley, colored.

Cecil C. Stewart and Miss Wilma Woods.

W. L. Anderson and Miss Virgie Worley.

## OKLAUNION SCHOOL TEACHING FARMING

IS ONLY COMMUNITY IN WEST TAKING ADVANTAGE OF SMITH-LEVER ACT.

Oklaunion is the only school district in West or Northwest Texas that is taking advantage of the Smith-Lever Act insofar as the teaching of agriculture is concerned, according to County Superintendent J. N. Fulcher.

Under this act the Federal Government pays half of the salary of a man who spends at least half of his time teaching agriculture. The school must also have equipment to the amount of about \$250 so that various agricultural experiments may be carried on.

W. M. Gourley, a graduate of the University of Texas is in charge of the work at Oklaunion. He has his projects well under way, and has the young people interested in the tests for germination of various sorts of seed, and various other experiments which are under way now. These will be followed by others to show how grafting and budding are done, and further tests to show the value of germination tests before planting seed.

A representative of the State Department of Agriculture was in Oklaunion yesterday and went over the tests, after which he lectured to the students on what scientific agriculture is, explaining that it is only using common sense instead of taking a chance in getting seed that will grow and profiting by tested methods in producing a crop.

### BASS KING STARTS HOME.

Foundation in for New Residence to Cost \$15,000 on West Paradise Street.

The foundation has been poured for Bass King's new residence on West Paradise street. The house will be just west of the home Daniel Bond is building.

Mr. King's home will be built of brick and cost about \$15,000.

Brick has been placed on the ground for a bungalow to be built by R. H. Coffee on West Paradise street just a block west of Mr. King's new home.

## BUSINESS MEN SAY WOMEN CAN BUILD APARTMENT HOUSE

Project of Home Science Club to Help Meet Housing Problem of Vernon Meets With Approval of Those Interviewed—L. G. Hawkins Declares Sixteen Needed Instead of One.

Business men believe that the Home Science Club has undertaken a most worthy project in their plan to build a modern apartment house for Vernon. The plan of the women is to construct a modern house to cost approximately \$50,000. It will contain a number of two, three, and four-room apartments, as well as a number of single rooms, a reception hall, and a dining room for single women. The apartment house would also contain living rooms for a manager.

"We need sixteen more just the size of the one contemplated," declared L. G. Hawkins, vice president of the Waggoner National Bank. "It is a good, sound, sensible project, and should be encouraged. I believe the stock will sell."

Les K. Johnson, vice president of the Herring National Bank, thinks it is a badly needed improvement and would be a paying proposition. "I believe the women can put it over," says Mr. Johnson.

"It can't help being a success if the business men and women of Vernon get behind this movement," says City Commissioner M. G. Neathery. "The proper management of the property is another big factor, and these plans should be worked out as far as possible before the sale of stock begins."

R. B. Sherrill thinks that it is a splendid proposition, providing it has the right management. He states that the success of any business proposition depends upon its management.

"A very commendable project," says Geo. W. Richardson. "If an up-to-date apartment house is built it will be well patronized and bring good returns to the owners."

U. S. Davis remarked that the bringing in of one oil well near Vernon would result in the stock for the building being disposed of at once. "It is a splendid proposition from a business standpoint, as well as for the civic life of Vernon," Mr. Davis affirms.

Dr. J. E. Dodson says "the apartment house will be a good thing for the town." He thought he would like a block of the stock.

J. C. Smith, chairman of the local school board, is very optimistic over the outlook, and thinks as soon as some of the oil stock is unloaded that stock will be bought in the apartment house proposition readily.

The columns of The Record are open for a discussion of this or any other proposition relating to the progress of Vernon and Wilbarger county.

### THALIA FARMERS WANT HELP.

Dr. R. E. Main Says Maize Headers Get \$5 a Day and Cotton Pickers \$2.75 a Hundred.

Farmers in the Thalia county want men to help harvest their crops. Dr. R. E. Main was in Vernon yesterday, and says that the farmers are paying men \$5 a day to head maize and \$2.75 a hundred pounds to pick cotton.

He reports very little sickness around Thalia.

### RED CROSS WANTS JACK BARTON

Bureau of War Risk Insurance Asks Aid in Locating Man Entitled to Allotment.

The Bureau of War Risk Insurance has asked the Red Cross to aid in finding Jack Barton. His Allotment and allowance checks have been returned. The man's serial number is 4382309. His address is given as Vernon, Texas.

Persons having any information concerning Mr. Barton are asked to notify Miss Esther Swartwood, telephone No. 6. In this way the man's allotment can be sent to him. It has been returned by the postmaster after having been unclaimed.

### Moves Here From Oklahoma.

Chas. Hunt and family of Osella, Oklahoma, moved to Vernon last week and will make this their permanent home. They are living on South Wood street.

## 6 AMENDMENTS TO BE VOTED ON TWO WEEKS FROM TODAY

Question of Holding State Convention to Frame a Constitution to Succeed Present One Written in 1875 Will Also Be Presented to Voters November 4th.

Voters will be called upon Tuesday week to decide whether six proposed amendments to the State Constitution shall be adopted. They will also decide whether Texas shall have a State convention to frame a new constitution.

The official ballot will be printed so plainly there will be little chance for the voter to make a mistake in marking the "X" where he desires. Each proposal will be printed twice—once with "For" preceding and the proposal and again with "Against" ahead of it.

The proposal constitutional convention is advocated to write a new Constitution for the State. The Legislature has fixed the membership at 142 members in the event the people vote to hold it. The Governor must call the convention for the first Monday in June, 1920.

The present Constitution was written in 1875 and adopted in 1876. In order to amend any single item, it is necessary to have the people vote on it. The proponents claim a new constitution can now be written to meet the demands of the growing State for years to come. The tenet fixing the Governor's salary at \$4,000 and the Comptroller's at \$2,500 is pointed to as an example of lack of vision on the part of the Constitution framers; the smallness of the Supreme Court body which has resulted in the courts being cluttered with cases grown musty with years of waiting, is cited.

The legislative act suggesting the convention, provides for 142 delegates to the convention, selected in the same manner in which members of the Legislature are. An appropriation of \$100,000 is made by the Legislature to pay the expenses of the convention.

### Machinery of Constitution.

This would take care of the \$7.50 allowed each delegate each day and their traveling expenses. The delegate must be at least 26 years of age, a citizen of the United States, resident of the State for at least five years and of the district from which he is elected. There are no limitations on the convention except that any measure relating to the homestead provisions must be submitted to the people separately. Providing the convention is held and a new Constitution voted on, it must be submitted to the people at a special election.

Of the six constitutional amendments proposed, all are of statewide interest except one—the amendment affecting Galveston. It is simply an appeal on the part of Galveston to be allowed to expend \$5,000,000 of its own money in protection against storms.

The amendment which has created the widest interest is the one popularly referred to as "the bond issue."

Earnest effort has been made by practically every civic body in the State to make plain to the voters that this amendment does not mean the issue of \$75,000,000 in bonds for roads. It simply gives the Legislature power to authorize bonds up to that amount, for "durable, hard-surface roads upon public highways in the State." The Legislature has no power at present to authorize the issue of a dollar's worth of good road bonds, but only the wealthy counties can afford to and as a result good roads suddenly terminate at the edge of some sparsely populated county.

### Pension Tax Proposed.

The amendment affecting the Confederate pension tax, proposes to increase the tax from five to seven cents on every \$100 valuation. The resolution also provides that the Legislature may receive the benefit, providing they soldiers who served in the militia or on the frontier border, or their widows may receive the benefit, providing they were born prior to 1866. The provision would also restore the amendments providing that aid may be given in the event of public calamity. This amendment was inadvertently dropped in 1912.

Payment to prisoners of a part of the profits from the prison system is provided for in the third amendment listed. Other profit sharing plans tried in prison conduct, have failed. Under the proposed plan, the prisoners or their dependents might be declared in

The fifth amendment "provides for the levy of taxes not to exceed thirty cents for roads, streets and bridges and not to exceed fifty cents for the erection of public buildings, streets, sewers, waterworks, and other permanent improvements and not to exceed sixty cents for the maintenance of public roads in one year." This amendment admits an increase in local taxes. In cases of "city or county," it would provide a limit of thirty-five cents; the present limit is twenty-five cents. The present tax limit for roads and bridges is fifteen cents; the new law would grant up to thirty cents. In place of the twenty-five cents limit for public buildings, streets, sewers, etc., the limit would be raised to fifty cents and in the case of the roads, the limit of maintenance, fifteen cents, would become sixty cents.

The proposal to separate A. & M. from the University of Texas has been given considerable attention. These two institutions are separate now in all save name. Each one has its own board of directors, its own president, and administrative officers. The University receives all income from State lands which have been given to the University. On the other hand, the legislature can not appropriate money for the University for other purposes than maintenance. This is one reason why the University has been so much hampered for lack of buildings.

If the amendment is adopted A. & M. will receive approximately one-third of the University lands, and the legislature will be permitted, when necessary to appropriate money for building and equipment at the University.

## At the Theaters

More's.

Today—William Russell, the screen favorite, will appear in a real now comedy-drama, "This Hero Stuff." "Big Bill" appears as a newly arrived hero from the front with medals galore. The hero, "stuff," however, does not appeal to him, so he decides to shatter the illusions surrounding his heroic reputation. His maneuvers entangle him in all sorts of scrapes. He falls in love and finally lands in bed with a broken head, and a bigger hero than before. This is one of the most humorous and original stories ever turned out by Fox.

Wednesday—"Why Germany Must Pay" is portrayed in a gripping way and is a picture that will live like a great book. A young Alsatian officer is forced to fight in the German army though his soul revolts at their acts of cruelty. Wounded, he is sent to a hospital, where Edith Cavell tries to save the men of all nations. After her execution and his escape he returns home to find conditions that cause him to make his get-away to America. He returns with our men in khaki and helps avenge his sister and assist in the glorious fight of right against might.

Thursday—Hale Hamilton appears in a dual role, "His Brother's Place." A story of a successful broker and a clergyman who has hard work to keep a congregation together. The successful brother plans a campaign to put the church on its feet and show to the congregation what a wonderful man they have as a pastor. The success that runs through the play is as fragrant as the old fashioned honey suckle that blooms in the pastor's garden.

Pictorium.

Today, Tuesday—Montagu Love appears in "A Broadway Saint," but is arrested for smoking a cigarette in a graveyard. This happens in sleepy Boonsburg far away from New York.

## CHRISTIAN CHURCH LAUNCHES DRIVE FOR \$350,000 FUND

Dallas, Texas, Oct. 20.—Considerable interest is being manifested in the campaign to be launched November 16th by the Christian Churches in Texas to raise \$350,000 for their educational, missionary and benevolent interests. Of the fund \$190,000 has been apportioned to Texas Christian University of Fort Worth, \$25,000 to Carr-Burdette College of Sherman, \$25,000 to Midland College, \$75,000 to the missionary interests, and \$25,000 to Julia Fowler Orphan Home and the home for aged people in Dallas.

Heading the movement as chairman is S. J. McFarland, of Dallas, and associated with him as vice chairman is Van Zandt Jarvis of Fort Worth. A central executive committee in charge of the active direction of the campaign is as follows: Sam J. McFarland, chairman, Dallas; Van Zandt Jarvis, vice chairman, Fort Worth; Donna Roberts, publicity director, Dallas; D. D. Rogers, treasurer, Dallas; Malcom Reed, Austin; Will H. Evans, Bonham; Edward McShane Walts, Fort Worth; Douglas Tomlinson, Fort Worth; R. E. Shepherd, Wichita Falls; M. Boyd Keith, Dallas.

J. C. Smith of Vernon is a member of the executive committee at large. For the purpose of discussing the plans of action to be carried out during the campaign, a luncheon is to be given Tuesday, October 28th, at the Adolphus Hotel, at Dallas, in addition to the members of the central executive committee and executive committee at large, many prominent laymen from all sections of the state are expected to attend.

## BANKERS SUGGEST THRIFT DECALOGUE

### TEN COMMANDMENTS FOR GUIDANCE OF MAN'S FINANCIAL LIFE DRAWN UP.

St. Louis, Mo., Oct. 18.—Ten commandments for the guidance of a man's financial life have been drawn up by a national committee of bankers and others to aid in the great drive of 1920 against the cohorts of high cost of living.

This decalogue for the frugal man to stiffen his morale in a battle to save something from the profiteers and rent raisers is part of the program for the national thrift week to begin January 17, next.

Plans for rallying the armies of money-savers for the 1920 drive by holding this thrift week were approved by the American Bankers' Association in its recent convention in this city. The idea already had the indorsement of the United States League of Building and Loan Association, National Federation of Construction Industries, Retail Credit Men's Association, National Association of Life Insurance Underwriters, National Credit Men's Association, the American Life Convention and other national bodies.

#### Ten Commandments of Thrift.

The ten commandments as recommended by Walter W. Head of Omaha, vice president of the national banking section of the American Bankers' Association are:

1. Make a budget.
2. Keep an intelligent record of expenditures.
3. Have a bank account.
4. Carry life insurance.
5. Make a will.
6. Own your own home eventually.
7. Pay your bills promptly.
8. Invest in war savings stamps and other Government securities.
9. Spend less than you earn.
10. Share with others. Thrift without benevolence is a doubtful blessing.

The eight days of the national thrift week have been named after some points of the financial creed as follows:

Saturday, Jan. 17.—"Bank Day" or "national thrift day," to emphasize the need for individual thrift and the service a bank renders a community.

Sunday, Jan. 18.—"Thrift Sunday," with sermons in all American pulpits on the relation of economic life to religious well-being and the need of sharing with others.

Monday, Jan. 19.—"National insurance day," to stress the need of protecting one's family.

Tuesday, Jan. 20.—"Own your own home day," to show why it is desirable and how it is possible to own your own home.

Wednesday, Jan. 21.—"Make a will day," to urge men to make wills.

Thursday, Jan. 22.—"Thrift in industry day," to advocate factory thrift and co-operation between capital and labor.

Friday, Jan. 23.—"Family budget day."

Saturday, Jan. 24.—"Pay your bills day."

#### Important to Teach Thrift.

Supporting this movement in address to the bankers in their convention here, Arthur M. East of New York, national director of the thrift week movement, said: "Financial and industrial leaders are interested in the increased cost of living because they know that in most cases the bill for the increased cost is handed by the worker to the employer for liquidation. The bill for the cost resulting from the inefficiency of the average man and housewife in the spending of money and their failure to get full value for money received is also handed to the employer for payment either in increased demands for wages or in increased dissatisfaction and industrial unrest.

"So, many employers are learning that, along with plans for stimulating the interest of the worker in his job, there must go hand in hand with it an education of employees in fundamental economics and in the use and value of money."

Mrs. S. W. Bailey and Mrs. R. L. More and son, Robert, returned yesterday morning from Dallas, where they attended the Victory Fair.

Miss Nadyne Riggs, stenographer in the office of the Chamber of Commerce, went to her home in Cooper Saturday to be with members of her family who are sick.

## ANOTHER DAY IS SET FOR GINNING ACALA

### J. S. BLANTON WILL STORE LINT UNTIL ENOUGH IS BROUGHT IN TO HANDLE.

Not enough Acala cotton was brought in yesterday to justify ginning, and it was agreed to hold the lint until more has been picked. The continued wet weather has prevented picking very much cotton.

J. S. Blanton agreed to store the cotton brought in yesterday and will store any other Acala cotton farmers may bring in until enough has been picked to justify cleaning the gin house of other varieties. He will make no charge for storing the cotton temporarily.

Farmers are anxious to gin their Acala cotton at one time so as to keep the seed pure. A premium is being offered on the seed now, and many farmers think the premium will be higher later on.

#### ODELL MAN WANTS PICKERS.

G. W. Bucy Thinks It Wise to Sell Cotton as Long as Price Is Above 30 Cents.

G. W. Bucy of Odell was in Vernon yesterday. He says there is a great deal of cotton open, and the farmers need pickers badly. Mr. Bucy figures on going to Fort Worth this week to get help.

He says that with cotton at the present high price he expects to sell. If the staple goes below 30 cents he may hold. Mr. Bucy expects the price to drop if there is a few weeks of open weather.

#### Arrests Two Negroes in Foard County.

Two negroes were arrested in Foard County last week by Sheriff W. A. Ish and Deputy J. W. Carrington on a charge of bootlegging. The sheriff of Rockwall county, where the men were wanted, came after them the latter part of the week, taking them back with him.

#### \$250 More for Salvation Army.

U. S. Davis, chairman of the Salvation Army drive in Wilbarger county reports the receipt of \$1 from Ray Albright in Northwest Vernon, and Mrs. S. A. Dill of Brown. Charlie Ballew of West Vernon contributed 50 cents.

Mrs. W. T. Rouse returned Friday from a several days' stay in Memphis.

Claude Bennett, Tram Scott and J. B. Andrews went to Crowell Sunday.

Dr. and Mrs. H. H. Rhoads left Friday for Aubrey, Denton county, to visit relatives a few days.

#### WORTHY MATRON RETURNS.

Mrs. J. A. Lucky Attended Meeting of Eastern Star Grand Chapter in Waco.

Mrs. J. A. Lucky, Worthy Matron of the local chapter Order of Eastern Star, returned Saturday from a meeting of the grand chapter of the Order of the Eastern Stars at Waco. She was accompanied by Mrs. Hattie Beadle of Chillicothe and Mrs. N. A. Foster of Odell.

Mrs. Lucky reports that on account of the scarcity of labor and the high price of materials, the Eastern Star Home will not be built this year. A fund of \$150,000.00 has been raised for this purpose. The site however has not been selected.

Dr. A. P. Howard returned home Sunday from Atlanta, Ga., where he attended the Confederate reunion.

Mrs. C. M. Blair and children visited from Thursday to Monday in Wichita Falls at the home of her brother, C. W. Gilliland. Mr. Blair went to Wichita Falls Saturday and returned with his family.

Misses Alice Hampton and Ruby Matthews from Crowell were in town Monday.

## One Post-War Maxwell Built Every 1½ Minutes

ONLY 60% of the demand for this magnificent Post-War Maxwell is being filled at the present time.

Yet eight great plants are working to capacity; and 13,000 men are devoting their best efforts to provide enough Maxwells.

Today, one Post-War Maxwell is being built every 1½ minutes of the working day.

This is at the rate of 100,000 cars per year.

Imagine what this gigantic production means to a purchaser of a Maxwell car.

Think of the gigantic saving in money which the purchase of millions of dollars worth of materials

means, and how the list price can be made so low.

Think of the accuracy, the sureness of the design of each single part, to take a chance on such rapid and enormous movement of raw material through those great plants to completed product.

Then think of the endorsement by the public which this great demand indicates.

The basis for this demand is represented in the good will of 300,000 owners of Maxwell cars before the coming of the Post-War Maxwell.

And the public bought \$200,000,000 worth. They will buy \$100,000,000 more in the next twelve months.

### COST OF PRODUCING COTTON.

The State Department of Agriculture estimates that it costs 44 cents a pound to produce cotton. The figures are based on 30 acres and the largest items are \$1,300 for the farm operator, \$400 for feed of team and \$480 interest on farm and equipment, making a total of \$2,080 for these three items out of a total estimated production cost of \$3,150.

The Department seems to have followed a vagary that has been used by so-called cost experts in almost every other line of business. It seems to have assumed that the operator and team will be engaged in nothing else but the production of thirty acres of cotton. It follows the one-crop idea. It would be interesting to know what the cost of lard would be if the packers did nothing but make lard. Yet this is the rule followed by the Department in figuring cotton production costs.

The Record does not pretend to know the cost of producing cotton, and it is probable that the one-crop method used by the Department in figuring costs will make the cost in excess of the average selling price. But any one who knows anything about the operation of a farm knows it would be foolish for the packers to make nothing but lard. We are of the opinion that cotton at 35 to 40 cents, if raised along with other crops like nine-tenths of it is produced, will yield a handsome profit, after allowance is made for high labor prices.

### ELIMINATE GRADE CROSSINGS.

It is estimated that 10,000 lost their lives and 25,000 were more or less seriously injured in grade crossing accidents during the last five years in this country. Just how accurate these figures are, we do not know, but they come from a reliable source, and it is probable that they do not exaggerate the case in the least.

What these 35,000 personal injury cases cost the railroads would be interesting. But it is certain that the cost was tremendous because we know that those injured by railroads are not backward about asking and that the average jury is not backward about giving a liberal money allowance for each accident. Let us figure it low—very, very low—saw \$1,000 per case, and we have the staggering total of thirty-five millions! Wouldn't it be cheaper both for the people and the railroads to eliminate grade crossings?

The announcement that Kleburg was the first Texas municipality to ask assistance of the State Chamber of Commerce in planning its physical growth along modern lines is a reminder that the organization offers to lend the services of its community-planning expert to any municipality desiring his services. George A. Kessler is the man who will outline plans for the growth of Kleburg. Why would it not be a fine thing for Vernon to ask Mr. Kessler's assistance. Make Vernon beautiful as well as progressive.

The history of the Home Science Club, written by Mrs. J. E. Collins, recalls the fact that

the women planted the trees along North Main and Cumberland streets about ten years ago. These trees bear vivid testimony of what might be accomplished all over the county with a little effort. Trees help a community by their influence on winds, as well as by their attractiveness. Wouldn't it be a fine thing if every farm home in the county might have a grove and woodlot?

### New Insurance Office.

Royal Burnside of Louisiana is in Vernon making arrangements to establish himself in the insurance business. He is moving his family to Vernon and will have rooms with W. C. Roddy. He has not located his office, however. Mr. Burnside is a son of T. E. Burnside, who is a son-in-law of J. E. Stovall.

J. J. Manis, owns Auto Accessory store, N. Bowie St., Vernon says: "Some years ago my back and kidneys were in bad shape, caused from a strain. My back was so bad I could hardly turn over in bed. There was a heavy pain across my back and hips. My back was so sore and lame at night. My kidneys were in awful shape and were inflamed, irregular and weak in action. The kidney secretions contained sediment and were painful in passage. I used different kidney remedies but none of them did me any good. I finally bought Doan's Kidney Pills at Pendleton & Son's Drug Company, and two boxes of this medicine cured me of every symptom of kidney complaint. ## A man's life — among men!

Reel them off—"Rio," Gibraltar, Ceylon, Yokohama—all the great ports of the world—are they only places on the map to you—or are they ports where you've gone sailing in from the high seas with every eye along the shore turned admiringly on your big ship—your ship! Every ocean has a United States ship sailing for some port worth seeing.

If you've any call in you for a full life—join, and color all your years ahead with memories of things worth seeing—with knowledge worth having—with an inexhaustible fund of sea tales and adventures picked up ashore and

afloat that will make you a welcome man in any company.

Work?—sure, and a man's work it is, among men.

Play?—well, rather, with a bunch of men who know how to play. These comrades of yours carry in their ears the sounds of great world cities, of booming guns, of swashing seas—sounds you will share with them and that will never die away.

And when you come home, you'll face life ashore with level eyes—for Uncle Sam trains in self-reliance as well as self-respect. The Navy builds straight men—no mollycoddles.

Enlist for two years. Excellent opportunities for advancement. Four weeks holidays with pay each year. Shore leave to see inland sights at ports visited. Men always learning. Good food and first uniform outfit free. Pay begins the day you enlist. Get full information from your nearest recruiting station. If you do not know where the nearest recruiting station is, ask your Postmaster. He knows.

### Confederates Return From Atlanta.

L. H. Stalcup and J. A. Creager returned Friday and R. A. Gilliland returned this morning from Atlanta, Ga., where they have been attending the Confederate re-union. They report a delightful time. The occasion was somewhat marred, however, by a rain which almost washed them out of their tents. Others of the party from Vernon, who attended the Atlanta re-union, are visiting relatives at various places in the South and will return within a few days.

C. J. Farrell and son, Teddy, went to Dallas Friday to attend the Fair.

Miss Nelle McKibbin returned yesterday from a visit with friends in Wichita Falls.

G. D. Souris of the Candyland returned Friday from St. Louis with his bride. They were married in that city several days ago.

Misses Minnie Turner, and Mary Lynn Walker, Gladner and Clifford Young, spent the day in Electra Sunday.

## OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarem Oil is enclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small

swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarem Oil Capsules will keep you in health and vigor and prevent a return of the disease. Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

## 10,000 KILLED IN 5 YEARS ON GRADE CROSSINGS IN U. S.

Two thousand killed and 5,000 injured is the annual toll of railroad grade crossing accidents in the United States. These figures were furnished by the Texas Automobile Dealers Association, on a five-year basis. During the last five years, 10,000 deaths, and 25,000 injuries have resulted from such accidents.

With the number of new automobiles and new drivers coming into service every day, these crossing accidents are increasing rapidly, the Association says.

These facts are made the basis of an appeal for automobile drivers to stop, look and listen, before attempting to cross a railroad track. In the face of such gruesome figures—10,000 dead, 25,000 injured in five years—wouldn't it pay to stop, look and listen?

## ANSWERING CENSUS QUERIES WILL HELP FARM PROFITS

Full and Fair Answer When the Enumerator Calls Are Likely to Aid You and Certain to Aid a Great Many Other Farmers to Success.

When the census enumerator comes around to the farm shortly after January 1 next year, he will ask some questions that may sound like prying into the purely personal affairs of the farmer. Now, the farmer, like every other self-respecting man, dislikes having his private affairs peeped into and, unless he thinks about this thing in advance, may have a disposition to be unresponsive if not actually resistant.

In actual fact, every question that the enumerator will ask is an essential question and has a direct bearing on the personal welfare and prosperity of the individual farmer as well as upon the advancement of the agriculture of the Nation as a whole.

When the Bureau of the Census decided to take the farm census in January instead of in April, it did so upon the advice of the United States Department of Agriculture. The farmer is less likely to be very busy in January than at the spring planting and breeding season, and his products and live stock are in better shape for statistical treatment. Also, every new question—and there are a number of them—inserted in the agricultural schedule was placed there after consultation with the Department of Agriculture and for the purpose of clearing up some specific situation in which the Department of Agriculture is trying to aid the farmer.

Here are some questions that will be asked: "Do you own all of this farm?" "Do you rent from others part but not all of this farm?" "Do you rent from others all of this farm?" "If you rent all of this farm, what do you pay as rent?" "If you own all or part of this farm, was there any mortgage debt or other encumbrance on the land so owned on January 1, 1920?" "What was the total amount of debt or encumbrance on land on this farm owned by you, January 1, 1920?"

### Pertinent—Not Impertinent.

"What the Sam Hill," you may inquire "has the Government got to do with how much money I owe on my land?" Well, two of the things to which the Department of Agriculture has been giving deepest thought during the past several years are farm tenancy and rural credits. The past three censuses have shown an increase in the number of tenants. Alarmists have felt—and said—that the country is going to the bow-wows by the land-lord route. The Department of Agriculture, however, looked into the matter as well as it was able, and refused to be alarmed. Where it was able to make surveys it discovered that while the number of tenants 25 years old was greater in 1910 than in 1900 or 1890, the number of tenants 45 years old was considerably smaller in 1910 than in 1900 or 1890.

The inference is that tenancy is a

step toward ownership, that the young fellow who becomes a tenant farmer when he marries, say, is likely to be a farm owner before his first child is grown—the farm paid for and the money that used to go to pay off the mortgage available for sending the children to college.

Now, to the Department of Agriculture, that looks like a thoroughly normal, healthy, and beneficial process. To just the extent that tenancy leads to farm ownership, it is a good thing for the country and for the individual.

But it has not been possible to get a complete, nation-wide survey of the situation. The forthcoming census offers the opportunity for doing that. If every farmer will answer the enumerator's questions fully and fairly the Department of Agriculture will have the data from which to analyze the situation accurately and to determine what things can be done to best advantage to help the tenant in his aspiration to become a farm owner.

One of the directions that aid may take is encouragement of rural credits—finding all of the ways possible of helping the young farmer to get money that he may need to borrow. It is necessary, therefore, to know what proportion of farmers who advance tenants to owners have to borrow money to make the change, and how much, in proportion to total value of the farms bought, they have to borrow.

The road toward ownership does not necessarily start with tenancy. A great many farm owners were first farm hands, then tenants, then owners with a mortgage, then owners debt free. The census will show, if the questions are answered fairly, how many years, if any, every farmer worked for wages; how many years he was a tenant; and how many years he has been an owner. The Department of Agriculture will have the basic information it needs to help men to success in farm ownership.

### Other Important Queries.

Here are some other questions that will be asked: "Has this farm a telephone?" "Is water piped into the operator's house?" "Has the operator's house gas or electric light?"

Now, that looks like an effort to find out whether or not the farm family has the modern home comforts—and it is just that, but it means something more than mere inquisitiveness. Several months ago, when the Bureau of Farm Management was in process of reorganization, the Secretary of Agriculture called a conference of heads of schools, social workers, and others from all over the country. When the people were assembled in Washington, he asked their opinion as to the most useful thing that could be done by the Office of Farm Management. For a whole day those people discussed the

matter. Just before night, with a score of items on the ballot, they took a vote. The work of promoting the comfort and convenience of the farm home received an overwhelming majority of the votes.

That, then, is one of the things that the Department of Agriculture trying to do in aid of the farm population of this country. In order to do the work intelligently, the department needs as full information as possible as to how the farm homes of the country are equipped for comfort and convenience.

### Another Way to Help.

Every farmer will be asked how many other acres of land there are on his farm that could be made suitable for cultivation if they were tile-drained or ditch-drained. When these questions are asked you, remember that they are asked every one of your neighbors. Possibly you have a tract of land that would be the most productive field on your farm if you could get the surplus water out of it, but

you can not do it because, to be effective, the drainage ditch would have to go far beyond the borders of your own farm, would have to be a county enterprise, and the county has not seen fit to do anything about it. If that be true, several of your neighbors have land that should be drained. If all of you tell the census enumerator how many acres you have that need drainage, the Department of Agriculture will have the facts to show what is needed in your community. When the opportunity offers, it will be in position to do what it may to secure for you what you need.

Those things are fairly typical of the questions that will be asked in taking the agricultural census. In order to answer all of the questions intelligently, the farmer will have to think about the matter a little before the enumerator calls on him. He ought to give the enumerator the most accurate information he can. What the individual farmer tells the enumerator is likely

## And the Pebbles Were Diamonds

The farmers of Kimberley were dissatisfied. They said they couldn't make a living from their farms. And all the time their children in the fields were playing with diamonds.

But they didn't know. They thought they were pebbles. They died poor.

Lots of people are just like those Kimberley farmers. They look for Opportunity with a telescope, in some far-away place, when it is really so close that they could reach out their hands and grasp it.

Don't miss the advertisements. They are business mines of opportunity. They tell of values that you might never know if they were not there to guide you.

Don't miss them. They will save you money.

## REBUILDING DERRICK FOR M'CALEB WELL

WORK IS NECESSARY BEFORE  
MAKING FURTHER TEST OF  
SHOWING OF OIL.

Workmen are busy this week building a new derrick to take the place of the one recently torn down over the McAlb well near Doans. A showing of oil was discovered in this hole last week and before they could go any farther it was necessary to either strengthen or rebuild the derrick.

It is also reported that the company has a fishing job on hand. Four joints of casing have stuck in the well and can't be dislodged without angling.

Model K-46

The Buick Model K-Six-46

## Buick Touring Coupe

THE BUICK Model K-Six-46 is a true Coupe model, with permanent sides and roof, an exceptionally wide body, and its graceful contour eliminates all open spaces between the body and fenders. From the outside, the appearance of the car is low, rakish and well-balanced, but there has been no sacrifice of interior head room. The rear fenders are new in design, with touring car running boards. Top, window casings and sashes, are fully metal covered, eliminating the possibility of checks and open joints.

The deeply upholstered interior is finished in a new and improved fabric, without bindings. Back of the driver's seat is a carrying space, with another in the rear deck. Electric side lamps are mounted on the cowl and a dome illuminates the interior. The double-latch doors may be locked from the outside.

## \$650 GIVEN TO ORPHANAGE.

Methodist Church Makes Liberal Response to Request for Funds Sunday Morning.

Six hundred and fifty dollars were given Sunday morning in response to a request for funds for the Methodist Orphanage at Waco. It was a free will offering. Rev. Henry P. Brooks, pastor of the local Methodist Church, presented the claims of the orphanage. He says the response was the finest he ever saw. Gifts varied from \$1 to \$50. Methodist churches all over Texas took free will offerings. It is the purpose of the denomination to erect another dormitory at the orphanage, as there are more applicants for places than the present buildings will accommodate. Nearly 400 orphans are being cared for.

CARDUI  
The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help. "I was taken sick, seemed to be . . .," writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

## VERNON MAN TELLS ABOUT TENNESSEE

J. D. THOMPSON SAYS IT IS RAINING EVERY DAY WHERE HE IS.

McKenzie, Tenn., Oct. 14.—It is raining today and I will take this means of conversing with my many friends in dear old Willbarger county the best county I have seen. I have just finished an old fashioned country dinner, which consisted of fresh hog sausage, backbone and spare ribs, beef steak and roast, turnip greens, green beans and tomatoes, sweet and Irish potatoes, butter milk and cheese, country sorghum, strawberries and shortcake, honey and blackberry jam.

Everything on the table was raised on the farm but the sugar, salt, coffee, and tooth picks. If all farmers would do this it would stop the high cost of living. The farmers here are turning their attention to dairying, sweet potato and strawberry raising. They are complaining as to the price of potatoes, which is 65 cents to 75 cents a bushel in car lots.

It is raining so much the people can't dry their potatoes and they fear they will rot when dug. I haven't seen the sun since I left Vernon last week. It commenced to rain before I got to Fort Worth. I attended the Fair at Dallas, only to be rained out. The Arkansas and Tennessee bottoms are full of water up to the ears of corn. Cotton and feedstuffs submerged.

I have been giving special attention to the improvements in different towns in the way of house, street and road building and Vernon is in the lead. All Vernon needs to put it on the map is a few oil wells, more boosters and fewer moss backs.

I must not omit the sensational part of my trip. About midnight after leaving Dallas I dreamed I was riding the figure 8 only to awake to the fact that my coach had left the track and was going by hops, skips and jumps. After a delay of an hour or so we were on our way without having to pay for our joy ride. Again I fell asleep and was awakened by a whiskey bottle crashing through the window in front of my nose. It struck an old man square in the back. He picked up the bottle and with a sigh he said, "Arkansas has prohibition, but it is not dry."

### 17 NEW BOOKS AT LIBRARY.

List Includes Volume on Child Development and Stories of Interest to Boys.

Following is a list of new books received at the Vernon Free Library:

"Dawn," a late book by Eleanor Porter, is the story of a blind boy, whose courage leads him through the gulf of despair into a final victory gained by dedicating his life to the service of blind soldiers.

"Studies in Child Development," by Julia Clark Hallman.

"The Care of the Baby," by J. P. Crozier Griffith, M. D., is a manual for mothers and nurses, containing practical directions for the management of infancy and childhood in health and in disease.

"The Squirrel Cage," by Dorothy Canfield Fisher. The heroine of this story grows from a care-free girl to a mature woman, who knows life and wants to choose for her children's happiness unhampered by what the "social" hierarchy of a middle western town says and thinks.

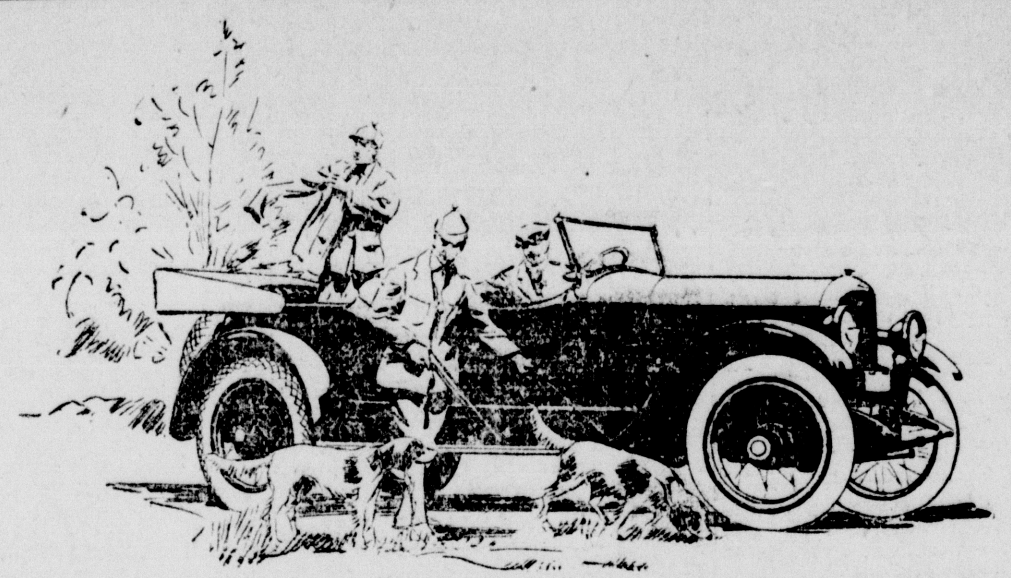

"The Three Godfathers," by Peter B. Kyne. A short story of three robbers in a California desert. An adventure brings them in close touch with motherhood which makes a deep impression upon their lives. Wonderful determination, courage and self-sacrifice are shown by these robbers, who endure harrowing experiences for the sake of a little child they agree to protect.

"Told by the Campfire," by F. H. Chelley. The scenes of these stories are laid in the out-of-doors of the Colorado Rockies. This book will be especially enjoyed by the younger boys because it contains stories of real boys who are full of vigor and the joy of living.

"The Four Horsemen of the Apocalypse," a novel by Vincente Blasco Ibanez, translated from the Spanish by Charlotte Brewster Jordan. It is a drama of modern life leading up to and describing the first stage of the war in France. The "Four Horsemen" are pestilence, war, famine and death, who precede the great beast of the book of Revelations. This is the work of a great genius stirred to the bottom of his soul by the weeks of tension, violence, and horror, which culminated in the battle of the Marne and by the splendor of the spirit of France under the trial.

## PAIGE

The Most Beautiful Car in America

Satisfaction is one of the biggest words in the English language. It is the ultimate goal of all human aspiration. Without it there can be no such thing as Happiness—with it, every moment of life is counted as worth while.

Buying a Paige car is nothing more or less than an investment in Satisfaction. It means the ability to come and go at will. It means freedom from mile posts and confining influences. It means intense pride in a thoroughly high grade mechanical product that is worthy of respect and confidence.
